

CHANDAN KUMAR SAHU

Full Stack Java Developer

Hyderabad, India | 7606816138 | Chandankumarsahu189@gmail.com | GitHub: github.com/chandankumar734 | LinkedIn: linkedin.com/in/chandan-kumar-sahu-601794225

PROFESSIONAL SUMMARY

Full Stack Java Developer with hands-on experience building web applications using Core Java, JDBC, Servlet, JSP, and MySQL, backed by a 1-year intensive full stack training program covering Spring and Spring Boot. Comfortable across the stack — from responsive HTML/CSS/JavaScript front ends to Java-based backend logic and database design. Looking for an entry-level Full Stack Java Developer role to build production-grade, scalable applications.

TECHNICAL SKILLS

- Languages: Core Java, Advanced Java
- Frontend: HTML5, CSS3, JavaScript, Bootstrap
- Backend & Frameworks: JDBC, Servlet, JSP, Spring, Spring Boot
- Database: MySQL, Oracle, SQL
- Tools & IDEs: Eclipse, Visual Studio Code, Git, GitHub

PROJECTS

E-Commerce Web Application

Eclipse | Java, Servlet, JSP, JDBC, MySQL

- Built a full stack e-commerce platform with product cart log, user authentication, and shopping cart, using Servlet/JSP for the web layer and JDBC for MySQL connectivity.
- Designed relational schema for products, users, and cart data; implemented session-based cart handling.
- GitHub: github.com/chandankumar734 (see repos)

Birthday Gift Web Application

Eclipse | Java, Servlet, JSP, JDBC

- Developed a dynamic birthday-wish web app with personalized greeting generation and interactive UI using Servlet, JSP, and JDBC.
- GitHub: github.com/chandankumar734 (see repos)

Zomato Clone — Food Ordering Website

VS Code | HTML, CSS, JavaScript

- Built a static, fully responsive food-ordering interface replicating core Zomato UI/UX, focused on layout structure and mobile responsiveness.
- GitHub: github.com/chandankumar734 (see repos)

Personal Portfolio Website

VS Code | HTML, CSS, JavaScript, Bootstrap

- Designed and deployed a responsive personal portfolio to showcase skills, projects, and contact details.
- Live: [add live demo link, if deployed] | GitHub: github.com/chandankumar734 (see repos)

TRAINING

Java Full Stack Development

Naresh I Technologies, Hyderabad

- Completed a 1-year intensive training program covering C, UI Design, Core Java, Advanced Java, Oracle, Spring, and Spring Boot.
